

Wholesale Customers: What Changed & What's Next

AdventureWorks Data & Insights • Darya Zhukova • Oct 2025

Agenda

- **Executive Summary — What Matters Most**
- **Complication — Why Now**
- **Proof: Customer Health, AOV; Territory Value & Risk**
- **Top-10 Customers — Where & What They Buy**
- **Recommendations & 90-Day Plan**
- **KPIs & Q&A**

Executive Summary — What matters most

- **449 Active • 168 Inactive** (inactive rising)
- **AOV:** Inactive ~ \$25K; 50 win-backs ~ \$1.25M
- **Revenue hubs:** SW \$21M, CAN \$16M, NW \$14M
- **Risk:** SE 28%, SW 21% inactive
- **Bikes = high value, low frequency**

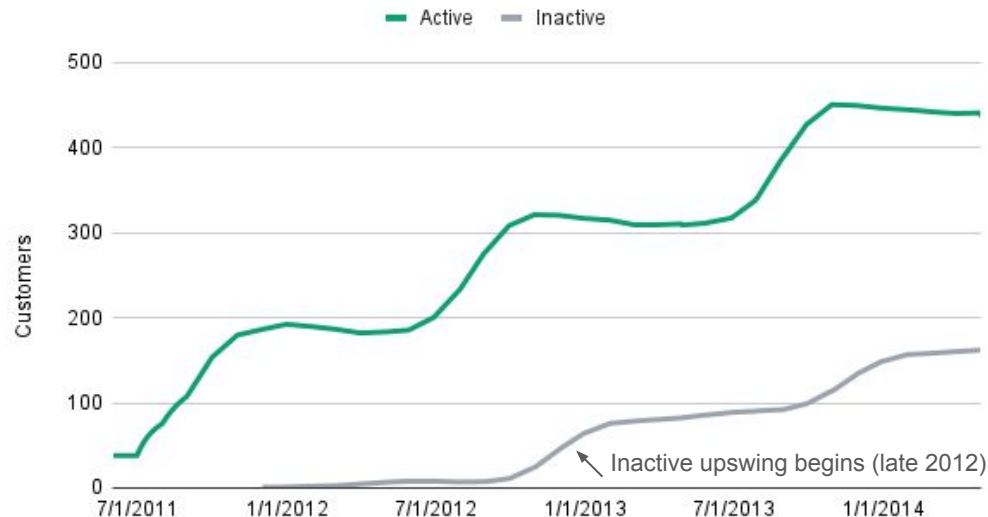

Complication — why now

- **Inactive share has climbed since late 2012 → retention risk**
- **Risk is uneven by territory: SE 28%, SW 21%**
- **Bikes = high value, low frequency → revenue swings**

Inactive Customers keep climbing (since late 2012)

- **Now: 449 Active • 168 Inactive**
- **Why it matters:**
Rising inactive = **retention risk**

Active = last order < 3 months; Inactive > 6 months

Inactive orders are bigger — AOV ~ \$25K

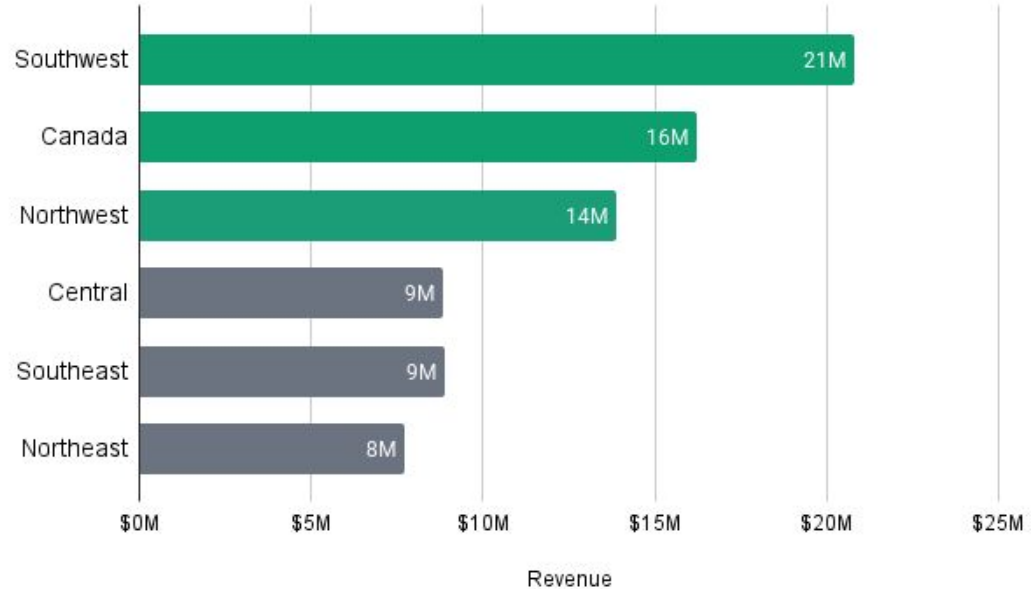

- **Active AOV remains strong**
- **Why it matters: 50 win-backs ~ \$1.25M** ($50 \times \$25K$)

Active = last order < 3 months; Inactive = last order > 6 months

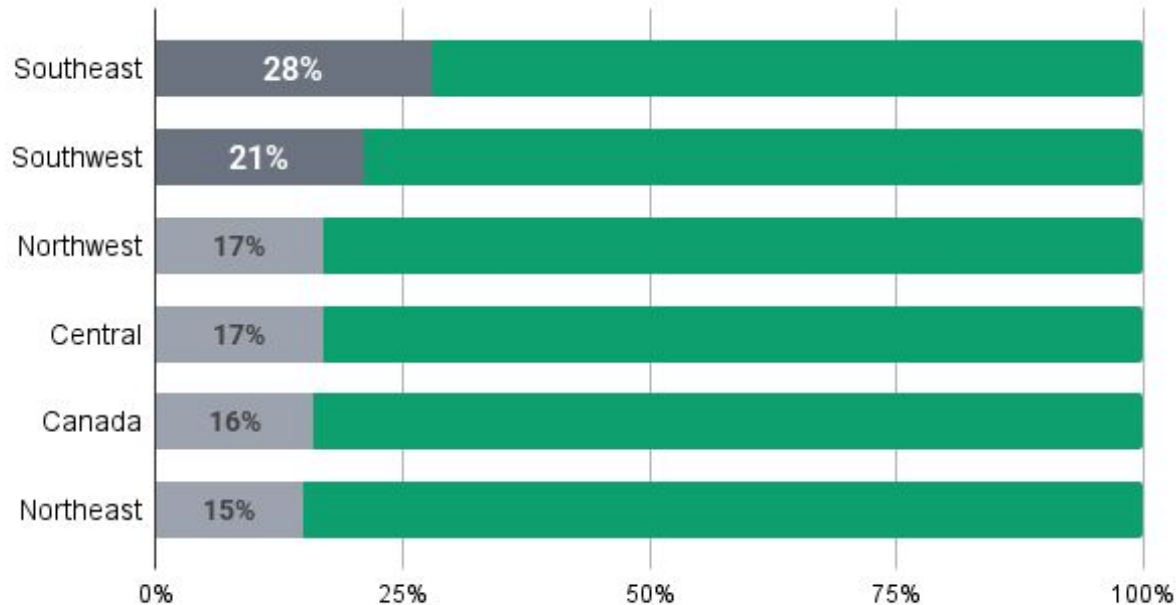

Revenue hubs — West Coast & Canada

- **Risk note:** SW is a top earner **but** has a higher inactive share than CAN/NW

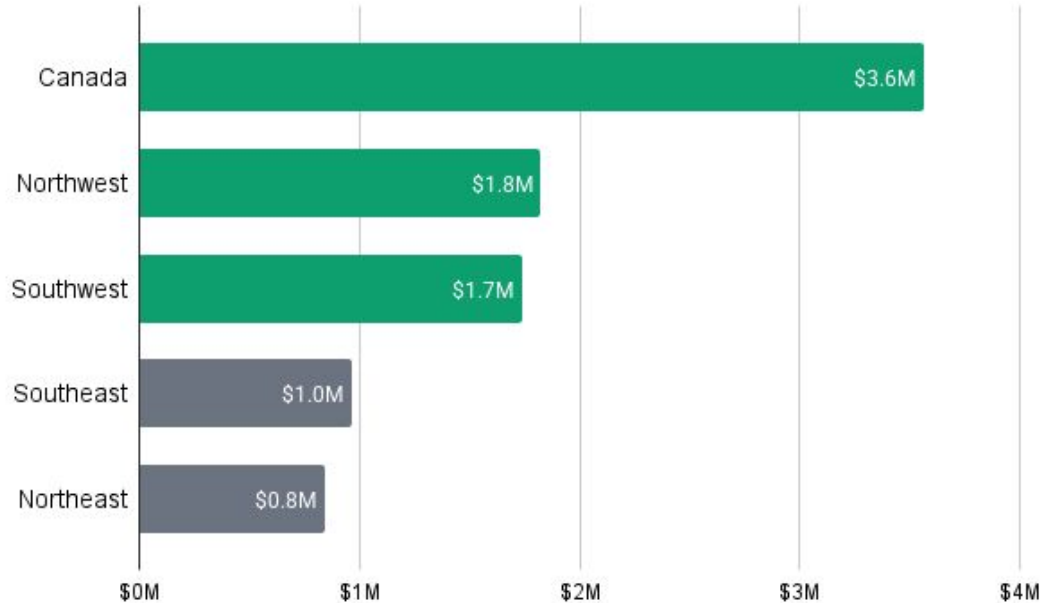

Risk concentrates — Southeast 28% inactive (highest); Southwest 21%

Inactive Share by Territory (drop “100% stacked”)

Top-10 Active Customers drive 9.84% of revenue

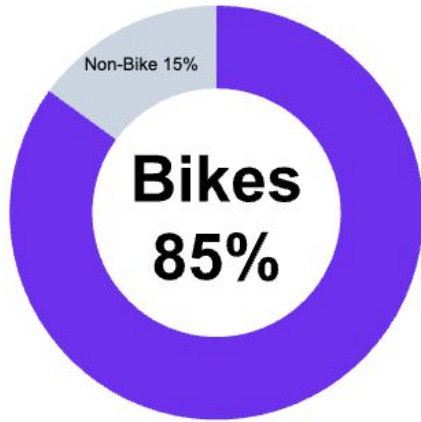

- **Where:** Led by **Canada**, strong in **Northwest & Southwest**

Category split: Bikes value, non-bike volume

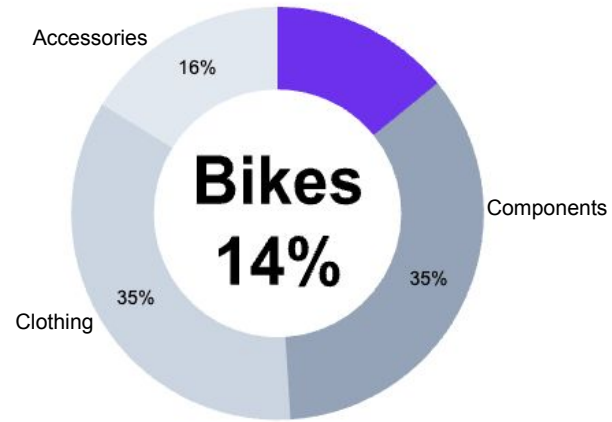

- **Value:** Bikes $\approx$ \$6.7M ($\approx$ 85%) of Top-10 revenue
- **Volume:** Most orders are **non-bike** — parts & clothing lead
- **Implication:** **High value, low frequency** — strong add-on potential

Share of revenue (Top-10)

Revenue context: Bikes $\approx$ \$6.7M

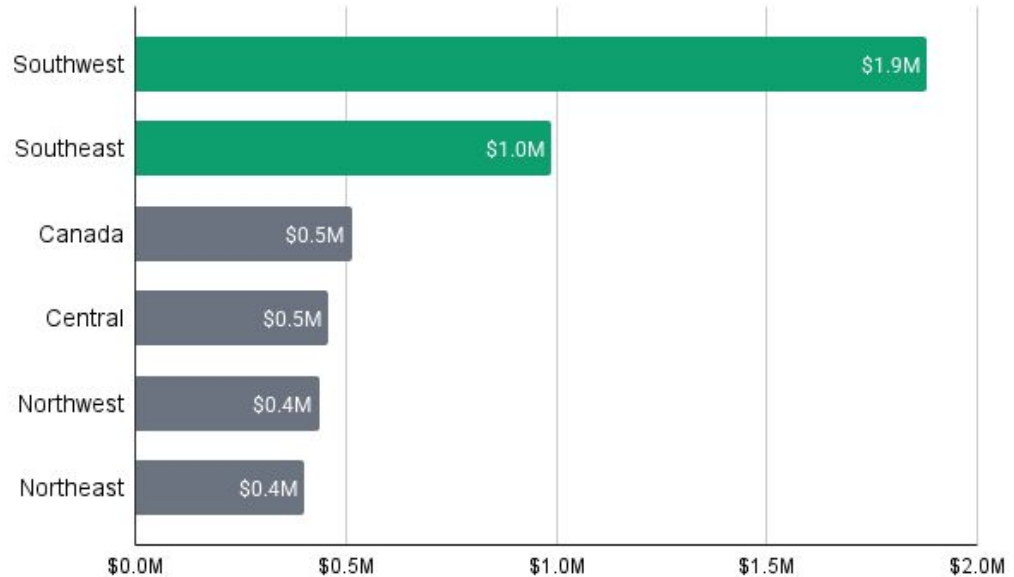

Share of orders (Top 10)

Orders context: Bikes 116 orders; Non-Bike $\sim$ 709

Top-10 Inactive ~ 5% of revenue — concentrated in Southwest & Southeast

- **AOV: ~ \$25K** (large baskets)
- **When: last order 12–24 months ago**

Recommendations (SMART) — Customers & Value

- **Look after the Top-10 current customers**

Goal: their share of sales **9.84% → 11%** in **6 months**

Do: reply within **24h**, **early access to new models**, talk once a quarter

Track: share from top-10, repeat orders

- **Win-back Top-10 inactive**

Goal: **15% come back** in **90 days**

Do: **one offer** per account (**bundle or free shipping**, ends in 30 days)

Track: % who came back, sales from those customers, **AOV**

Recommendations (SMART) — Territories & Orders

- **Territory playbooks (reduce churn)**
Goal (6 months): Southeast 28% → 20%, Southwest 21% → 17%
Do: same simple service rules (**reply in 24h, quote in 24h**), local offer
Track: inactive customers (%), days from quote to order
- **Grow Bike orders (and add-ons)**
Goal: Bike order share +3 points next quarter
Do: ready-made **Bike + parts** bundles, small prompts at checkout
Track: Bike orders, order share(%)

90-Day Plan

Weeks 1–2

- Finalize target lists
- Turn on the KPI tracker
- Set up: win-back offer (**free shipping, 30-day**) and **service rules for Top-10 customers** (reply <24h, quote <24h, early access to new models)

Weeks 3–6

- Run the win-back test in **Southeast & Southwest**
- Launch **Bike + parts** bundles
- Start **Top-10 customer check-ins** (once per quarter)

Weeks 7–12

- Scale the **best-performing offer**
- Roll out **territory playbooks**
- Share **results & next decisions** with leaders

KPIs — Weekly

Win-back response rate
(Inactive customers)

Top-10 share of revenue —
9.84% → 11% (2 quarters)

Share of Top-10 orders that include
a Bike — +3 pts next quarter

Quotes under 24h (Top-10) —
≥95%

Inactive % (Southeast) —
28% → 20% (6 months)

Inactive % (Southwest) —
21% → 17% (6 months)

Q&A
